

Statement of Substance of the Interview

Responsive to the Interview Summary dated August 20, 2008, having a period for response 30 days or one month whichever is longer to submit a written reply, applicant submits the following statement.

Applicant's representatives pointed out the differences between the claimed invention and the Liu reference as identified in the Interview Summary provided by the Examiner. The comments were generally addressed to the difference between a SATA IO and a network as well as the translation of logic commands as performed by the present claimed invention.

If there are any questions or if further clarifications are desired, the Examiner is requested to call the undersigned attorney.
